## **100% natural, organic and quality snacks... but not only!**

Tasty and innovative recipes; a Belgian and artisanal production; organic, 100% natural and quality ingredients; nutritious, vegan, gluten-free and no added sugar snacks... That's what a Nature Snacks product is all about.

But we are much more than just a producer of organic goods. Our project is to become a central player in the food transition, by embodying values that go beyond the guidelines of organic farming and that are necessary to build a fair, sustainable and socially responsible model.

# KASANA

A photograph of three women in a pineapple field. The woman in the foreground is smiling and wearing a light blue tank top and a pink headscarf. She is holding a large, ripe pineapple. Behind her, two other women are visible, one wearing a purple headscarf and the other a white headscarf. They are all smiling and appear to be working in the field. The background is filled with green pineapple plants and trees.

## CASHEW NUTS

Discover our range of plain and roasted cashew nuts

We developed our cashew nuts production chain in Burkina Faso, in partnership with Chouboupi, a cooperative of **300 local producers**.

After being harvested and shelled in Burkina Faso, the cashew nuts are transported to our workshop in Belgium. **They are then seasoned and roasted in a traditional way, without oil, and with 100% natural and organic ingredients.**

# VANILLA BEANS

## Discover our Gourmet vanilla beans from Uganda

Gourmet vanilla beans are particularly aromatic and rich in vanillin, which makes them a very popular variety with restaurant owners and pastry chefs looking for exceptional products.

**KASANA vanilla beans are imported from Uganda**, where they are harvested and dried in direct partnership with the Amani Community Center. This cooperative includes a training centre, a school and a solar drying centre.

### KASANA's agricultural chains

By creating our sustainable agricultural chains, we make sure to respect **4 commitments** :

- Work in **direct partnership with the producer**, without unnecessary intermediaries.
- Ensure that producers and workers benefit from **decent working conditions**.
- Limit our **environmental impact** as much as possible.
- **Create jobs** and support local producer associations.
