

KASANA

A photograph of three women in a lush green field, likely a pineapple plantation. The woman in the foreground is smiling and holding a large, ripe pineapple. She is wearing a light blue tank top and a colorful headscarf. Behind her, two other women are also smiling and holding pineapples and stacks of cash, suggesting they have just sold their produce. The background is filled with tall green plants and trees under a bright sky.

**ORGANIC DRIED FRUITS, NUTS, SEEDS & SPICES
DIRECTLY FROM THE PRODUCER TO YOU**

OUR COMMITMENT

At KASANA, we import organic dried fruits, nuts, seeds and spices directly from producers, following principles of fair trade and sustainable agriculture.

We believe in a transparent and as short a supply chain as possible. Our mission is to bring producers and consumers closer by minimizing intermediaries. To achieve this, we source directly from producers, forging close and sustainable relationships with them.

This approach ensures maximum traceability of our products and maintains consistent quality. It also guarantees fair and stable remuneration for producers while creating added value and employment opportunities in remote rural areas. Together, we are committed to making a tangible positive impact on local communities and the environment.

Our catalog includes a wide range of organic dried fruits, nuts, seeds, and spices, as well as various processed products. Most of our items are available both in bulk and in packaged formats, catering to the diverse needs of our customers.

In our workshop in Belgium, we process and package the products we import: nut butters, dried fruit mixes, roasted nuts, and more. All our products are certified organic and made exclusively from 100% natural ingredients.

By choosing KASANA, you are supporting a dedicated and passionate company. Thank you for being part of our journey towards more responsible consumption.

François-Xavier & Augustin
